On May 19, 2013, Theresa sent a letter to Warden Pfister at Pontiac Correctional Center (where James is incarcerated). The letter requested permission to have a polygraph examiner administer a polygraph exam to James. The letter also states that James's family and friends would pay for the polygraph and all other costs incurred, costing the prison, the state, and the taxpayers NOTHING.

On June 5, 2013, Theresa received a response from Warden Pfister, denying the request. Warden Pfister did not state a reason for the denial.

What reason could they have to deny this? Either James will pass it and could use the results to substantiate his claim that he is innocent, or James will fail the polygraph and no harm has been done since James's family and friends would pay for it.

Theresa is sending a second letter requesting that Warden Pfister state a reason for the denial. We're awaiting a response.
